Action Learning And Its Applications

Action learning is an approach to solving real-life problems. It involves taking action and reflecting upon the results. This helps improve the problem-solving process as well as simplify the solutions developed by the team.

Action learning - Wikipedia

What is action learning? Action learning is the process of bringing thinking and action into harmony. Learning is a continuous process and is best achieved with an open, probing mind, an ability to listen, question and explore ideas.

ince the Industrial Revolution, our organizations and society at large have held three biases regarding learning. First, the transmission of knowledge from an outside expert, whether a teacher, consultant, or "best practice," is seen as the essence of learning. Second, by institutionalizing "off-line" classroom learning, the building of capacity becomes separate from the use of [...]
