### **Architecture A World History**

The history of architecture traces the changes in architecture through various traditions, regions, overarching stylistic trends, and dates. The branches of architecture are civil, sacred, naval, military, and landscape architecture (landscape architecture is a discipline of its own right, not a branch of architecture, it just happened to have 'architecture' in a name).

Egyptian Architecture. The first great civilization to emerge around the Mediterranean basin was that of Egypt (c.3100-2040 BCE). In addition to its own written language, religion and dynastic ruling class, it developed a unique style of Egyptian architecture, largely consisting of massive burial chambers in the form of Pyramids (at Giza) and underground tombs (in the desolate Valley of the ...

### **HISTORY OF ARCHITECTURE - History and Timelines**

Architecture is both the process and the product of planning, designing, and constructing buildings or any other structures. Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art. Historical civilizations are often identified with their surviving architectural achievements.

Modernist Architecture in America (c.1925-60) A late feature of modern art in general, Modernist Architecture was the attempt to create new designs for the "modern man". It rejected all traditional

styles based on older prototypes, and proposed a new type of functional design which used modern materials and construction techniques, to create a new aesthetic and sense of space.

Architecture, the art and technique of designing and building, as distinguished from the skills associated with construction. The practice of architecture is employed to fulfill both practical and expressive requirements, and thus it serves both utilitarian and aesthetic ends. Although these two ends may be distinguished, they cannot be separated, and the relative weight given to each can vary ...
