Crows And Owls A Collection

The American crow (*Corvus brachyrhynchos*) is a large passerine bird species of the family Corvidae. It is a common bird found throughout much of North America. American crows are the New World counterpart to the carrion crow and the hooded crow. Although the American crow and the hooded crow are very similar in size, structure and behavior, their calls are different.

John Canepa as also provided the following information: Bobolinks and whippoorwills are two

different birds. The bobolink is a small-medium size bird dwelling in open fields where it makes its nest on the ground and has one of the most amazing and hysterical songs ever. The whippoorwill is a medium size bird, active at night, with plumage so as that you practically step on them as they rest on ...

Collective nouns and terms for groups of animals other ...

Collective nouns are used to describe a group or collection of individuals. This includes groups of people, animals and inanimate objects. They have developed throughout the history of the English language, with new collective nouns still being created, although time will tell if these latest additions will survive (think "a hood of bro's", "a array of geeks").
