

Industrial Arts And Vocational Education

Industrial Arts And Vocational Education

Industrial arts is an educational program which features fabrication of objects in wood or metal using a variety of hand, power, or machine tools. It may include small engine repair and automobile maintenance, and all programs usually cover technical drawing as part of the curricula. As an educational term, industrial arts dates from 1904 when Charles R. Richards of Teachers College, Columbia ...

Industrial arts - Wikipedia

Vocational education is education that prepares people to work as a technician or in various jobs such as a trade or a craft. Vocational education is sometimes referred to as career education or technical education. A vocational school is a type of educational institution specifically designed to provide vocational education.. Vocational education can take place at the post-secondary, further ...

Vocational education - Wikipedia
