*Intellectual Trust In Oneself And Others*

### Intellectual Trust In Oneself And

Intellectual property (IP) is a category of property that includes intangible creations of the human intellect. Intellectual property encompasses two types of rights: industrial property rights (trademarks, patents, designations of origin, industrial designs and models) and copyright. It was not until the 19th century that the term "intellectual property" began to be used, and not until the ...

Philosophy of Love. This article examines the nature of love and some of the ethical and political ramifications. For the philosopher, the question "what is love?" generates a host of issues: love is an abstract noun which means for some it is a word unattached to anything real or sensible, that is all; for others, it is a means by which our being—our self and its world—are irrevocably ...
