

Intervention With Children And Adolescents An Interdisciplinary Perspective

Intervention With Children And Adolescents

Leo Kanner, a Boston physician, first used the word 'Autism' in 1943 when he reported on a group of children with deficits in social communication 1.Independently, in 1944, Hans Asperger, an Austrian physician, identified similar difficulties in a group of young boys 2.Today the term Autism is used to describe a behaviourally defined disorder that is characterised by impairments in social ...

INTRODUCTION — Many adolescents think about suicide and attempt to kill themselves. In 2011, 13 percent of adolescents in the United States planned a suicide attempt in the previous year and 8 percent attempted suicide [1]. Although completed suicide is rare, suicide was the second leading cause of death in 2014 among adolescents age 15 to 19 years [1].
