

## *Legal Institutions*

### **Legal Institutions**

Law is a system of rules that are created and enforced through social or governmental institutions to regulate behavior. Law is a system that regulates and ensures that individuals or a community adhere to the will of the state.

### **Law - Wikipedia**

Institution. The commencement or initiation of anything, such as an action. An establishment, particularly one that is eleemosynary or public by nature. An institution can be any type of organized corporation or society. It may be private and designed for the profit of the individuals composing it, or public and nonprofit.

### **Institution legal definition of institution - Legal Dictionary**

Legal institutions can be roughly characterised as distinct legal systems governing specific forms of social conduct within the overall legal system. The hallmark of legal institutions is that they can be dealt with as independent social phenomena. Keywords. These keywords were added by machine and not by the authors.

If legal institutions aren't strong enough, the state can get away with it. There's loads of other examples of legal institutions that shape the economy. Anything from consumer protection laws, regulating what can and can't be sold, to labour laws, regulating the age at which it is acceptable for a child to work, form the backdrop of how our economies function.
