Liminal States

In anthropology, liminality (from the Latin word *līmen*, meaning "a threshold") is the quality of ambiguity or disorientation that occurs in the middle stage of a rite of passage, when participants no longer hold their pre-ritual status but have not yet begun the transition to the status they will hold when the rite is complete. During a rite's liminal stage, participants "stand at the ...

By extension, liminal beings of a mixed, hybrid nature appear regularly in myth, legend and fantasy. A legendary liminal being is a legendary creature that combines two distinct states of simultaneous existence within one physical body. This unique perspective may provide the liminal being with wisdom and the ability to instruct, making them suitable mentors, whilst also making them dangerous ...

Victor Witter Turner (May 28, 1920 – December 18, 1983) was a British anthropologist who studied rituals and social change and was famous for developing the concept of "liminality," first introduced by Arnold van Gennep, and for coining the term "communitas." Turner's work revealed much about the processes of social change, both from the point of view of the individual experience and the ...

When I sat down to arrange my thoughts and write down the proceedings for the 4 th International Conference on Comics and Medicine I quickly realised the usual summary of abstracts would not do justice to the extraordinary event. Over 3 days there were about 50 presentations, plus keynote addresses, interviews, workshops, an art exhibition, charity auction, short film screening and marketplace ...
