Asia and the Pacific | International Organization for ...

The migration of health workers affects all countries in one way or another. In some cases, health workers leave their home countries looking for better working conditions and career opportunities abroad. In others, they leave rural areas for urban ones. The result: increasingly inequitable access to health care, within and between countries.

WHO | Health workforce - Migration

This is the fourth edition of Society at a Glance Asia/Pacific, the OECD's overview of social indicators for the region. The report addresses the growing demand for quantitative evidence on social well-being and its trends across countries in Asia...

OECD iLibrary | Social Issues/Migration/Health

Migration and health. Recent events in North Africa and the Middle East triggered a dramatic increase in migration, which highlights the need to identify best practices and engage in a cross-national political dialogue on migration.

WHO/Europe | Migration and health

The health problems of refugees and migrants are similar to those of the rest of the population, although some groups may have a higher prevalence. The most frequent health problems of newly arrived refugees and migrants include accidental injuries, hypothermia, burns, gastrointestinal illnesses ...

WHO/Europe | Migration and health: key issues

The share of migrants in European populations is substantial and growing, despite a slowdown in immigration after the global economic crisis. This paper describes key aspects of migration and health in Europe, including the scale of international migration, available data for migrant health, barriers to accessing health services, ways of improving health service provision to migrants, and ...

Migration and health in an increasingly diverse Europe ...

The Black Death was one of the most devastating pandemics in human history, resulting in the deaths of an estimated 75 to 200 million people in Eurasia and peaking in Eurasia from 1331 to 1353. Its migration followed the sea and land trading routes of the medieval world. This migration has been studied for centuries as an example of how the spread of contagious diseases is impacted by human ...

Black Death migration - Wikipedia

Migration, through remittances, contributes to improving birth at hospital, skilled birth assistance, antenatal and postnatal care. • Children in migrant households receive more preventive health inputs, which may have a positive impact on child health.
