Common Course Catalog and Matrix. The course descriptions and student learning outcomes for courses that have been reviewed by faculty and approved to be part of New Mexico's common course numbering system can be found in the course catalog below.

Common Course Numbering for Faculty and Administrators

In informal logic and philosophy, an argument map or argument diagram is a visual representation of the structure of an argument. An argument map typically includes the key components of the argument, traditionally called the conclusion and the premises, also called contention and reasons. Argument maps can also show co-premises, objections, counterarguments, rebuttals, and lemmas.

x Global longitudinal strain (GLS), derived from speckle-tracking echocardiography (STE), is a widely used and reproducible left ventricular deformation parameter; assessment of multilayer strain components has also become possible. However, its association with comorbidities/symptoms in low-risk populations without cardiac disease remains understudied.
