### **City of Los Angeles Risk Management**

Information technology risk, or IT risk, IT-related risk, is a risk related to information technology. This relatively new term was developed as a result of an increasing awareness that information security is simply one facet of a multitude of risks that are relevant to IT and the real world processes it supports.

### **Risk - Wikipedia**

IT risk management is the application of risk management methods to information technology in order to manage IT risk, i.e.: . The business risk associated with the use, ownership, operation, involvement, influence and adoption of IT within an enterprise or organization
