Social Perspectives On Emotions Vol

Emotion is a mental state associated with the nervous system brought on by chemical changes variously associated with thoughts, feelings, behavioural responses, and a degree of pleasure or displeasure. There is currently no scientific consensus on a definition. Emotion is often intertwined with mood, temperament, personality, disposition, and motivation. ...

Emotional Intelligence (Goleman) - Learning Theories

We know emotion is important in education—it drives attention, which in turn drives learning and memory. But because we don't fully understand our emotional system, we don't know exactly how to regulate it in school, beyond defining too much or too little emotion as misbehavior.
