

## *Solomon Crocodile*

**Solomon Crocodile**

The Enormous Crocodile is a 1978 children's story, written by Roald Dahl and illustrated by Quentin Blake. The book itself was so successful at the time that a feature-length film based on the story is scheduled to be released on 22 February 2019, marking forty years since the first edition of the book was published. [citation needed]

Crocodile attacks on humans are common in places where large crocodilians are native and human populations live. Less than half of the 25 crocodilian species have been involved in fatal attacks on humans, and only crocodilians about 2.5 metres (8.2 ft) in length or more represent a serious danger to humans, as smaller crocodilians are considered incapable of killing adults.

The Saltwater Crocodile, also known as 'Estuarine crocodile', 'Indo-Pacific crocodile', or 'saltie', is the largest living reptile that has gained the bad reputation of being a man-eater. It is considered to be 'partly marine', and infests the salty waters and marshlands of most parts of south and southeast Asia, down to the continent of Australia.
