Bodymind is an approach to understand the relationship between the human body and mind in which they are seen as a single integrated unit. It attempts to address the mind-body problem and resists the Western traditions of mind-body dualism and dualism. The term bodymind is also typically seen and encountered in disability studies, referring to the intricate and often times inseparable ...

Contrary to what many people believe, the case of Doris Bither, that later became the novel and motion picture The Entity, was not, in my professional opinion, the result of spectral rape, .a.k.a. spectrophilia, but a rather disturbingly real poltergeist outbreak. Unfortunately, the amassed data on the case does not in any way support ghostly sex, but back in the mid-1970's in my mid-20's ...
