The Mystery of Matter: "UNRULY ELEMENTS" (Documentary)

With Michael Emerson, John Allegra, Michael Aronov, John Curlless. From early alchemists to those obsessed with the atom itself, the collective knowledge of centuries of bold thinkers and tinkers constructed what is today the basis of modern chemistry. This is the story of the trailblazers whose curiosity about their world helped unlock some of nature's best kept secrets.

Mystery of Matter: Search For the Elements DVD | Shop.PBS.org

I used the teacher guide for the Mystery of Matter video series to create worksheets for students to complete while watching the first two episodes. This can be used if you are leaving the video as a sub plan or if you want to assign the video as a homework assignment. It would also work as an assignment for absent students if you watch the video in class whether you use the
