Enterprise Performance Analytics | ExtraHop

Text analysis is the automated process of obtaining information from text. In today's information-saturated world, it's a challenge for businesses to keep on top of all the tweets, emails, product feedback and support tickets that pour in every day.

Text Analysis: the only guide you'll ever need | MonkeyLearn

Security design is challenged by the complexity and porous nature of modern networks that include public servers for electronic commerce, extranet connections for business partners, and remote-access services for users reaching the network from home, customer sites, hotel rooms, Internet cafes, and so on.
