Ambulatory Care Nurse. Ambulatory care nurses provide high quality nursing care in an outpatient setting. This type of nurse may work in a clinic, medical office, university health center, government institution or other healthcare settings where patients are not required to stay overnight.

Types of Nursing Careers & Specialties ...

Immigrant health care in the United States is distinct from citizen health care given the context of various social and economic factors as well as implemented health policies. Consequently, in addition to managing the physical and emotional strains of making a cultural transition, immigrant families find themselves in an increasingly hostile social and political environment.

Cultural competence and ethical decision making are two separate, yet intrinsically related concepts which are central to services rendered by all health care professionals. Cultural competence is based on ethical principles and informs ethical decision making. In spite of this important connection, the interrelationship of these two concepts does not receive the attention it deserves in the ...
