Try To Remember Psychiatry

bloggerforstudentprogress-blog:. Hi there! Both of those things are correct, yes. I will say that my depression is pretty mild comparatively speaking, so things might be different if your illness is more severe than mine, and at the risk of sounding like I'm bragging again I've never had to work too hard to keep my grades up (my mom blessed me with an amazing brain, I guess).

Over the past year you may have seen preliminary reports of results from the Multimodal Treatment Study of Children with ADHD (MTA). This is the largest and most comprehensive treatment study of ADHD that has ever been conducted. Last month, the initial papers reporting the results from this study were published. This is a landmark study with a number of important implications.

Auntie Psychiatry says: October 27th 2018 SPB: "To boot there is a gene test which has been around for a long time which predicts the phenotype (strength of enzymes) but nobody in the UK gets this test and few know about it." I've been trying to dig into this - it seems that public awareness in the US is much more advanced, and the American Psychiatric Association is clearly getting nervous.

Welcome to the official launch day of Zen Psychiatry! Today is a big day for me for a couple of reasons. 1) My blog relaunchs (yay!), and 2) A few days ago I finished my 2nd year of psychiatry residency, which will usher in a big change for me in terms of schedule, lifestyle and overall happiness with work.

DIAGNOSIS People tend to have a lot of questions about Autism Spectrum Disorders (ASD), especially around the diagnosis. They are often surprised when they hear statistics about how common Autism has become, have questions about why the number of Autistic individuals seems to be increasing, or wonder why two individuals with Autism may look so different.

A sense of interconnectedness is central to self-compassion. It's recognizing that all humans are flawed works-in-progress, that everyone fails, makes mistakes, and experiences hardship in life. Self-compassion honors the unavoidable fact that life entails suffering, for everyone, without exception. While this may seem obvious, it's so easy to forget.

This is an excellent interview, which I will be returning to re-read. As someone who has been directly involved in research and speculation about this matter for some 20 years now, it is refreshing to see someone who can direct the force of years of independent research at what will turn out to be one of the most crucial topics in human cognitive evolution, and may supply the keys to the many ...
