### **Voluntary Sector In Transition Hard**

A transition economy or transitional economy is an economy which is changing from a centrally planned economy to a market economy. Transition economies undergo a set of structural transformations intended to develop market-based institutions. These include economic liberalization, where prices are set by market forces rather than by a central planning organization.

The tertiary sector or service sector is the third of the three economic sectors of the three-sector theory. The others are the secondary sector (approximately the same as manufacturing), and the primary sector (raw materials). The service sector consists of the production of services instead of end products. Services (also known as "intangible goods") include attention, advice, access ...

Our lives depend on energy wherever we live. But in order to prosper while tackling climate change, society needs to provide much more energy for a growing global population while finding ways to emit much less CO<sub>2</sub>. Shell has long recognised the climate challenge and the role of energy in enabling a decent quality of life.

Highlights We review the origins of the 'social license to operate' (SLO) in the mining sector. Northern Canada is used to demonstrate the context-specific nature of SLO. Shifts in governance and a focus on sustainability have enabled SLO to emerge. Complex configurations of state, market and civil society actors and institutions are additional influences on SLO. Further research is needed ...
