Why Im Afraid Of Bees

I want to address this issue because a lot of non-beekeepers land on this site looking for ways to kill bees without using pesticides. This is good news because it shows that people are becoming more aware of the dangers of pesticides to our environment, children, and pets. Conversely, it's bad news because it shows that many people are not aware of how important bees are to life on Earth.

TELL IT TO THE BEES (dir. Annabel Jankel) Gripped by a failing marriage and the responsibilities of having a young son, Lydia (Holliday Grainger) finds solace in her growing bond with the town's new female doctor Jean (Anna Paquin). But this is the 1950s in a post-WWII rural Scotland, and the womens' relationship prompts raised eyebrows in their provincial circles.

If you're vegan you may be thinking "those stupid Vegan Bro motherfuckers. That's blasphemy! Honey is NOT vegan!". But if you're not vegan, you're probably thinking, "wait, do vegans not eat honey either? Holy shit! I knew they were fuckin crazy!" We set the record straight in this video:

The 1 Reason Why Honey IS Vegan

Clover lawns do have some disadvantages: It stains clothing more easily than grass. It is not durable enough for playing fields or high traffic areas, unless mixed with grass.; It is a short-lived perennial and may require reseeding every 2-3 years to maintain an even stand in pure clover lawns. In mixed grass-clover lawns, clover will reseed itself adequately to maintain a consistent presence.

Always, the leaves on the north side are a deeper green and have less browning. And this is related to the fact that the sun shines on the south side more intensely, extracting more water from those leaves every single day of the year, which means more chloride is collecting in those leaves compared to the north side.
