Philosophical analysis (from Greek: Φιλοσοφική ανάλυση) is the techniques typically used by philosophers in the analytic tradition that involve "breaking down" (i.e. analyzing) philosophical issues. Arguably the most prominent of these techniques is the analysis of concepts (known as conceptual analysis

Analytic philosophy: Analytic philosophy, a loosely related set of approaches to philosophical problems, dominant in Anglo-American philosophy from the early 20th century, that emphasizes the study of language and the logical analysis of concepts. Although most work in analytic philosophy has been done in Great Britain

Analytic philosophy | Britannica.com

Analytic philosophy has been the dominant academic philosophical movement in English-speaking countries and in the Nordic countries from about the beginning of the twentieth century up to about the 1970s or 1980s, and possibly since then. It is distinguished from Continental philosophy, which takes its name from the European continent and is the dominant philosophy in most non-English speaking ...

Philosophy of mind - The soul and personal identity: Perhaps the problem that most people think of first when they think about the nature of the mind is whether the mind can survive the death of the body. The possibility that it can is, of course, central to many religious doctrines, and it played an explicit role in Descartes's formulations of mind-body dualism, the view that mind and body ...

ambiguity. The presence of two or more distinct meanings for a single word or expression. In itself, ambiguity is a common, harmless, and often amusing feature of ordinary language. When unnoticed in the context of otherwise careful reasoning, however, it can lead to one of several informal fallacies.. Example: "I'll give you a ring tomorrow." could signify either the promise of a gift of ...
